PATHWAYS OF IMPACT AGRICULTURE-HEALTH

EPHA DEMANDS FOR CAP REFORM

1. Remove health-harmful subsidies (e.g. *sugar, wine promotion, historical entitlements, exclude tobacco*)
2. Shift to performance-based incentives (*from hectare payments to targeted plan-based approach, with equity element*)
3. Foster sustainable healthy diets within a wider food policy (*strategic support for F&V, local market development, refocus animal farming incentives*)
4. Implement Health Impact Assessment
